#### WASHINGTON.

Movements of the President.

President Grant is expected to return to Washingon Saturday or Monday next.

Return of Secretary Rawlins. The presence of Secretary Rawlins at his desk at War Department this morning renewed somewhat the great anxiety which has been manifested mong the employes of the department concerning the large reduction of the force, but the Secretary was engaged all the morning in attending to business which had accumulated during his short abence, and no further action has been taken upon

the subject of dismissal. Injustice to a Member of the British Legation. Notwithstanding the impression which appears to ave been created by the letter of Senator Grimes and the reported conversation of Reverdy Johnson. that Mr. Howard, of the British Legation, had made some free remarks relative to the counterbalancing latter gentleman was unjustly represented, he not having expressed any opinion on the subject. It is understood that the remarks attributed to Mr. Howard were playfully made by another gentleman in the presence of Mr. Sumner, who rather ungenerously treasured them up for available use at the moment when the treaty was under consideration in Senate executive session. Mr. Sumner is not esteemed er scrupulous in magnifying trivial events into matters of importance when a point can be gained. Negroes as Citizens—The Election Riots Defended by Colored Republicans-Death to

Colored Democrats.

The negroes of the Second ward of this city are not disposed to condemn their brethren who got up the riot at the recent election. At a meeting of the republican club of that ward, composed mostly of negroes, a white man offered the following resoluon on the subject:-

Resolved, That disgraceful scenes having occurred Resolved, That disgraceful scenes having occurred at some of the voting precincts of this ward at the recent election, well night resulting in a fearful and extensive riot, and endangering the life and property of our citizens, the republicans of the Second ward take this early occasion to express their deep regret and earnes, denunciation of those scenes and of the persons who insugated and of the measures that led to them; that those who forcibly resist or control the exercise of the elective franchise are self-constituted despots, &c.

This fell like a hombstell upon the meeting and

This fell like a bombshell upon the meeting, and after an excited discussion, during which the negroes threatened to kill those of their race who ted the democratic ticket, the resolution was summarrly laid on the table. The negroes not only deended the conduct of the rioters, but said it would be repeated should provocation be given. Finally ne following was adopted:— Resolved. That this body laments the riotons com-

thes which turnished the dec ded victory in the election, and smoorely hopes that necessity will ow upon us no repetition of the scenes of Mon-, June 7. Workings of the Official Guilletine-Old Sol-

diers Decapitated-Eleventh Hour Patriots Rewarded.

The severing machine performed some eccentric movements in the Land Office vesterday. In the list of removals is the name of S. L. Crissey, of the Thirty-first Congressional district of New York. He had served in the war, is an emphatic republican, was a competent and valued clerk, and was backed by Senator Fenton, the present representative of his district, and the Commissioner of Pensions. The name of W. J. Johnson is in the list. He is a nephew of Judge Underwood, served in the war and was a capable clerk. It also includes the name of J. A. Deeble, who has been in the hecorder's office sixteen years, and was re garded as an indispensable appendage. Of the twenty-four decapitated clerks most of them are uncompromising republicans, and many of them had certified their loyalty on the battle field. The out side pressure is unabated, and is apparently in behalf of that class of patriots who received \$1,000 bounties for their involuntary sacrifices in behalf of the Union.

Clerks to be Discharged from the War

As the appropriation bills have been cut down, the Secretary of War-finds it necessary to dispense with every one not actually required, and therefore called upon the heads of each bureau of the depart ment to furnish a detailed report of the number of clerks authorized, the number employed, the work upon which they are engaged, &c., with the view to reduce the force in each office. He is now receiving these reports, and will in a few days designate the number to be dismissed, which will not exceed 100. pleted. Hence the statement that between 300 All the enlisted men whose services can be dised with will be honorably discharged from the rvice and not asserned to any regiment, although e department has the right to do so. The order designating the number in each bureau to be dised will be issued on Saturday or Monday next. Exchange of Coupon Bonds for Registered

Applications are constantly being received at the ticularly from those which have been government depositories, for coupon bonds in lieu of the regis-tered bonds on deposit with the Treasurer of the United States. Such applications cannot be granted by the Secretary without special authority from

The ceremony took place at St. Patrick's church. and was witnessed only by about a dozen people, including her brothers, Isaac and John, and a few indies, as witnesses. Rev. Father J. A. Walter, who attended Mrs. Surratt in her last moments, per-formed the marriage coremony, assisted by Rev. J. J. Keane, assistant paster of the church, who was College, Maryland. After the ceremony Father Walter delivered a brief address to the bride and bridegroom, wishing all happiness to their union and giving them his benediction. The bridal party then entered two carriages and drove to the railroad depot, where they took the quarter to one o'clock train to New York. An adjourned meeting of the printers of the Government Printing Office was held this afternoon. The committee appointed on Tuesday made a report in the case of L. H. Being deprived of membership therein through no fault of dice as to color on the part of members of the union. it is impossible he could become a "rat" by violating an obligation of the union or by any failure to take such obligation. TROTTING AT MYSTIC PARK, MISS.

BOSTON, June 17, 1869.

An immense concourse of spectators visited the Mystic Fark track at Medford this afternoon to witness the trotting announced to take place there. The weather was delightful and the track in the tailed report of the proceedings the trotting was Boy winning the first race and Confidence the second. Lasy Hamilton met with an accelent while scoring between the second and third heats of the but beyond that everything went off pleasantly. Boy elicited such favorable comment from the spec-New York, that he offered the magnificent sum of noon with the great toot for the \$4,000 premium, for which American Girl, George Palmer, Lucy, George Wilkes, Bashaw, Jr., and Goldsmith Maid are entered. Great sport is anticipated from the character of these horses for speed, and no doubt public expectation will not be disappointed. We will now proceed to detail the fine troiting of yester-

# BOARD OF ALDERMEN.

The Board met yesterday afternoon, with the President, Alderman Coman, in the chair. After the usual amount of routine business had been disposed of a resolution was adopted that a joint committee of three members of each Board be appointed by the respective Presidents thereof to confer with Messra Horace Greeley, William Orton and Alexander T Stewart, Commissioners on the part of the United States, respecting a proposed exchange of the 65,259 square feet of land in the City Hall Park, heretofore deeded by the city to the United States, for another plot of ground of similar area, at a different location in said park, which proposed exchange has been recently authorized to the city by the Legislature, and requested on behalf of the United States by the above-named commissioners. The President then appointed as such committee upon the part of this Board Aldermen Ward, Moore and McGrath. Resolutions were also adopted directing the paving of Forty-seventh street, from First to Second avenues; Fitty-fifth street, from Eighth avenue to Hudson river, and 117th street, from Fourth avenue to Harlem river, with Beigian pavement; donating to the Academy of the Holy Cross \$1,690 to pay assessments, and to the Reformed Dutch church in Henry street \$180, and fixing the salaries of the engrossing cierks of the Boards of Aldermen and Assistant Aldermen at \$3,000 per annum. While at the window deceased was called to go to her work, when she turned, and without looking, shipped and fell through the hatch, distant only espatient inches from the window, to the lower floor; the half of the folding hatch nearest the window was closed and the other half open, preparatory to housting some boxes.

Alexander Ross, general superimendent of the factory, deposed to the location of the hatch and look out of the window. In the opinion of Annic Clark, forewoman of the fifth floor, had the deceased, in leaving the window, looked before her the accident would not have occurred. Other testimony of similar import was taken. Dr. Cushman examined the body of deceased and found that she had received a compound racture of the skull. The injuries were the cause of death.

On the evidence presented the jury returned a verdent of accidental death. The parents of deceased being poor, Mr. Scheuder, in whose ractory the accident occurred, kindly consented to assist in defraying the funeral expenses.

### THE NATIONAL GAME.

Eckford vs. Cincinnati-Still Another Victory for the "Red Stockings."

At the Union grounds yesterday there was a repetition of the scenes of Saturday last and Tuesday last, "only more so." That is to say, the Union grounds were crowded; enterprising wagon owners stationed themselves in ad-joining streets and hired out "standing room" to admirers and enthusiasts with limited purses; the windows and housetops in the neighborhood each fords and Cincinnatis, with a number of other pretty signals, fluttered in the breeze and added to the gala day appearance of the spot. The gamins in possession of knot holes in the fence and of precarious positions on the top of the fence were as numerous on any previous occasion, and they, together with the immense throng within the enclosure, were as good natured and as enthusiastic as any ball players could hope for. If base ball be dying out it must be by some internal disease; for certainly the exterior is as healthy as its most ardent devotee could wish it to be. There must have been some seven or eight thousand people present at the game yesterday, and all evinced from first to last most evident interest in the game. The opening of the game was delayed a few minutes awaiting the appearance of Jewett, catcher for the Eckford nines. Eggler was finally substituted in his place on the list, and Hodes assigned to the post of catcher.

commenced with the "Red Stockings" at the bat. George Wright, the first striker, after waiting a little while, hit the ball as hard as he could, but the ball had been well Martinized, and instead of cut-ting along to the field it popped up over right short field, and Patterson captured it.

had been well Martinized, and instead of cutting along to the field it popped up over right short field, and Patterson captured it. Gould followed with a grounder to short, and went out at first base by the play of Carleton and Allison. Then Waterman easayed his skill at the stick and got a ball just where he wanted it? and made one strike, then tipped the ball and it went back just high enough to be out of the reach of Hodes, out he shortly afterwards tipped it again and Hodes captured it on the bound. This opening was loadly cheered by the Williamsburgers, while the Chichnali folks looked as if they believed that they would be bothered by the teazing little pitcher throughout the game.

On the part of the Eckiords Allison opened with a safe hit to centre field and made his base. Patterson followed with a solid hit, sending the bail toward short field. Everybody knows that in doing so he did a dangerous thing as the "Red Stockings" have two men playing short—that is to say. George Wright is as good as two men—and Allison, being forced to leave first base, was headed off at second by Wright and Sweasy, and Patterson was disposed of at first by a throw from Sweasy to Gould. Martin soon popped the bail up over second and Sweasy attended to him.

Thus far the score was even. In the next inning Allison (of the Cincis) was saved by a missed fly togatch by Carleton and subsequently made his run. Leonard secured his run after a splendid hit or light field. H. Wright was captured by Hodes on a hy tip, Brainard was caught on the fly by Nelson and George Wright disposed of by a spendid fly catch by Treacey, and Sweasy and McVey were left on the bases. Another double play marked the second maing on the Eckford side. Nelson earned first base by a good hit to left field, but being forced by Hodes, who hit to left field, but being forced by Hodes, who hit to left field, but being forced by Hodes who hit to left field, but being forced by Hodes who hit to left field, but being forced by Hodes who hit to left field, but being

Empire vs. Social-First Game of the Sensor at Hoboken-The Empire Victorious. On Monday last the Empire and Social clubs of this

city were to have played their first game on the grounds at the Eiysian Fields, Hoboken, but owing to the dubious appearance of the weather the Em-pires did not appear in strength. The Socials were on hand, but instead of claiming forfeit courteously agreed to postpone the game until yesterday. Not withstanding the immense gathering of baseballists at the Eckford-Cincinnati game there were still some withstanding the immense gathering of baseballists at the Eckford-Cincinnati game there were still some left to attend the game at Hoboken. Although it is a grand and exciting thing to see base ball played to perfection, yet it loses some little of its attraction when it is known that those who show it in its perfection are thorough professionals, and that it is their business to play well, or otherwise be discharged. To turn then from base ball in such perfection to a game played by men who adopt it merely for exercise and amusement is somewhat of a relief. The Empire Club of this city has ever stood in the foremost ranks of the fraterity for upright, manly and good social, characteristics. It has maintailed its position despite repeated drafts upon its playing strength, and has preserved its characteristics intact. In years past it has made a good playing record, and has given some of the strongest clubs in this vicinity as much as they could do to escape being whipped. The Social Club is much younger than the Empire Club, but it has already won a good reputation as a biaying club, and as an association of genticmanily ball players. The Socials have had their nine together two or three times this season, but bad weather interfered and prevented them from playing out the games which they had commenced. Yesterday the games which they had commenced to be a few of the game between them and the Empires came off, and although the latter were not present in full strength yet they managed to defeat the former in heavy style, as the score below will show. Both nines played well in the field, but the Empires excelled their opponents at the bat. The score of

The playing of the Miller Brothers, of Voege, Griffin, Docksey, and, in fact, of all hands in the field, is spoken of as being first class.

Base Ball Notes. To-day the Red Stockings play the Irvingtons at Irvington, and the Mutuals play the Haymakers at the Union grounds.

To-morrow the Haymakers play the Eckfords, and on Monday they play the Atlantics. To-morrow the Mutuals play the Stars at the Capitoline grounds,

JIGNS OF THE TIMES.—IN PASSING UP BROADWAY

we were struck by the bold display of Dr. Suerman's
multitudinous signs, ornsmenting the race of his magnificent
building, corner of Broadway and Fourth street. We were
pleased as the thought erossed our mind that it indicated his
success and the combinence he has in his abilities to excel in
the art of healing or curing rupture which has baffled the
skill of the surgion in all former generations. His travelling
show window or wagon, too, moving on Broadway, full of
trussen cast off by those who have been relieved by his Ruptures of the second that we have been relieved by his Ruptures of the second that we have been relieved to the his
property of the second to do, in his own way,
without the sex or favor of any one.
